

# HELMETS AND CLOTHING – GUIDELINES AND EXAMPLES

This guide shows the basic principles to be followed for helmets and clothing.  
Sizes and placement must be adapted to the individual brand and model.

# EXAMPLE – HELMETS

Logo size must be adapted to different helmet brands and models.

Standard helmet

Supervisors

Safety representatives

Crew and visitors

# PRINCIPLES – COMPANY NAMES

GMC's company names varies greatly in length.  
Therefore, some simple rules for sizes above the pocket on left chest have been made.

The size of the company names can be adapted to the individual garment/model.

The company names must have a balanced size in relation to the garment,  
but the name **GMC Power & Automation** should never exceed the width of the pocket.

The letter height of all company names must be equal on the same garment.

The company names must be left-aligned above the pocket.

# EXAMPLE – WORK OVERALLS

Must be adapted to different clothing brands and models.

# EXAMPLE – JACKETS AND PANTS

Must be adapted to different clothing brands and models.
